# Welcome, Millionaires!

I, Taquisha Love, born and raised in Fort Wayne, Indiana, has been a relentless entrepreneur since 1998. After graduating from Northside high school that year, I began doing taxes for myself, and eventually for others. In 2002, I was introduced to credit repair and this became a successful side hustle. In 2016, I started working for a family member with an established tax business, and decided to create on my own in 2018. This led to my career and starting my own health care business, T LOVE HOME CARE SERVICE LLC, which is still running successfully today. In Jan 2022, I found a great support system in Baddie Boss University, founded by Lee Campbell from Atlanta, Georgia. With this journey of building my brand. I found faith to help others become successful in their own businesses. As a result, I launched T LOVE MILLIONAIRE MINDSET UNIVERSITY to provide a platform for others to reach their success.

Sincerely,

Taquisha Love
